

Programme Title: BSc (External) Degree in Estate Management **UCAS code: N/A**

For students entering Part 1 in 2012/2013

Awarding Institution:	University of Reading
Teaching Institution:	College of Estate Management
Relevant QAA subject benchmarking group(s):	Construction, Property & Surveying
Programme length:	4 years for students entering Part 1
Date of specification:	June 2012
Programme Director/Leader	Richard Sykes
Programme Adviser:	
Board of Studies:	Undergraduate Board of Studies (CEM)
Optional Placement Year:	N/A
Accreditation:	Royal Institution of Chartered Surveyors; Recognised by Hong Kong Institute of Surveyors

Summary of programme aims

The programme aims to provide students with a sound understanding of the principles and practices involved in estate management up to degree level standard and to prepare them for progression to Masters Level should they so wish.

Transferable skills

During the course of their studies, all students will be expected to enhance their academic and personal transferable skills in line with the University's Strategy for Learning and Teaching. In following this programme, students will have had the opportunity to develop such skills, in particular relating to career management, communication, interpersonal skills, learning skills, numeracy, self management, use of IT and problem-solving, and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

Programme content

Part 1 (Dec - Sept)		<i>Credits</i>	<i>Level</i>
<i>Compulsory modules</i>			
Mod Code	<i>Module Title</i>		
F101ECO	Economics 1	20	4
F102LAW	Introduction to Law	20	4
F103TEC	Technology 1 (low rise)	30	4
F107MAN	People and Information Management	20	4
Part 2 (Dec – Sept)			
Mod Code	<i>Module Title</i>		
F104TEC	Technology 2 (high rise)	30	4
F105ECO	Economics of Property and Construction	20	5
F106LAW	Property Law	20	5
F108MAN	Managing Products and Finance	20	5

Part 3 (Dec - Sept)		<i>Credits</i>	<i>Level</i>
<i>Compulsory modules</i>			
Mod Code	<i>Module Title</i>		
F209VAL	Valuation & Investment 1	20	6
F210VAL	Valuation & investment 2	30	6
F212PLN	Planning Practice & Policy	20	5
F214CPN	Commercial Property Management	20	5

Part 4 (Dec - Sept)		<i>Credits</i>	<i>Level</i>
<i>Compulsory modules</i>			
Mod Code	<i>Module Title</i>		
F313AV	Applied Valuation	20	6
F317PRO	Project	30	6

Optional modules: (two from the following)

Mod Code	<i>Module Title</i>		
F306LAW	Environmental Law	20	6
F314INV	Investment	20	6
F315SV	Statutory Valuation (compulsory in Singapore)	20	6
F316DEV	Development	20	6

Progression requirements

Each module is assessed to an overall 40% pass mark. There is no minimum requirement in either examinations or assignments.

Students who fail one module at Part 1 may proceed to Part 2 at the discretion of the Examinations Board. They may then have a further attempt at that module at the same time as undertaking their Part 2 modules.

Students who fail one module at Part 2 may proceed to Part 3 at the discretion of the Examinations Board. They may then have a further attempt at that module at the same time as undertaking their Part 3 modules.

Students who fail one module at Part 3 may proceed to Part 4 on the same basis as above.

Students with certain exemption and progression profiles may be allowed to do a combination of modules from different parts in order to balance their workload between years of their course.

Students who fail more than one module must pass the failed modules before proceeding to the next part of the course, notwithstanding the balancing referred to above.

Students are allowed three attempts at each module at each part of the course

Summary of Teaching and Assessment

Teaching is organised in modules that typically involve distance learning study materials supplemented by periods of face to face teaching. All modules are assessed by a mixture of coursework and examinations with the exception of the Project at Part 4. Details are provided in the module descriptors.

The overall classification of the Degree is based upon Part 4 results. Part 3 results can be taken into consideration in appropriate circumstances

Assessment classifications are as follows:

Mark	Interpretation
70-100%	First Class
60-69%	Upper Second
50-59%	Lower Second
40-49%	Third
Failing categories	
30-39%	Below threshold standard (BTS)
0-29%	Unsatisfactory work

Details of the Assessment, Progression and Award Regulations can be found in the CEM Academic Support section on the Virtual Learning Environment (VLE)

Late submission of coursework and extension of time:

Students who submit their coursework on or before the due date shown in the course timetable will receive the awarded mark in full. A student may submit an assignment up to seven days after the due date but will forfeit 10 of the awarded marks. An assignment received eight or more days after the due date without an agreed extension will be marked at zero. However, the student will receive feedback on the work with an indication of the standard achieved.

Applications for extensions of time are made initially to the Course Administrator who, acting under the delegated authority of the Course Leader, may grant up to seven extra days at his/her discretion. Only in exceptional circumstances may a later submission date be given, and applications must be made in writing to the Course Leader supplying written evidence in support. Students are limited to a maximum number of automatic extensions in any one registration period (see the Virtual Learning Environment for details).

Where an extension is agreed, this date becomes the new submission due date and the rules on forfeiture of marks apply from this date.

Admission requirements

Entrants to this programme are normally required to have obtained:

Grade C or better in English and Mathematics at GCSE
UCAS tariff: 230 points (Two A-Level passes or equivalent)
BTEC National Certificates DD
BTEC National Diploma MMM
IB Diploma: 24 points

Applications below 230 UCAS points may be considered on merit.

Applications are welcome from international applicants and those coming from other educational routes.

Admissions: Admissions Committee (College of Estate Management)

Support for students and their learning

The University provides learning support for local students through the library, which, across its three sites, holds over a million volumes, subscribes to around 4,000 current periodicals. Students currently

have no access to the University computers. It is a requirement of the course that students have personal access to a computer with internet facilities, both for the College's website and for the wealth of internet technical information.

Within the College of Estate Management further support is provided by direct email contact with subject tutors, web-based discussion forums through the use of a VLE and the provision of lecture notes and assignment answers on the College web pages. There is a Course Adviser to offer advice on the choice of modules within the programme. The course administrators, Student Services staff and tutors (as appropriate) provide pastoral care. Text books, DVDs and CDs are currently provided to support the study material.

Career prospects

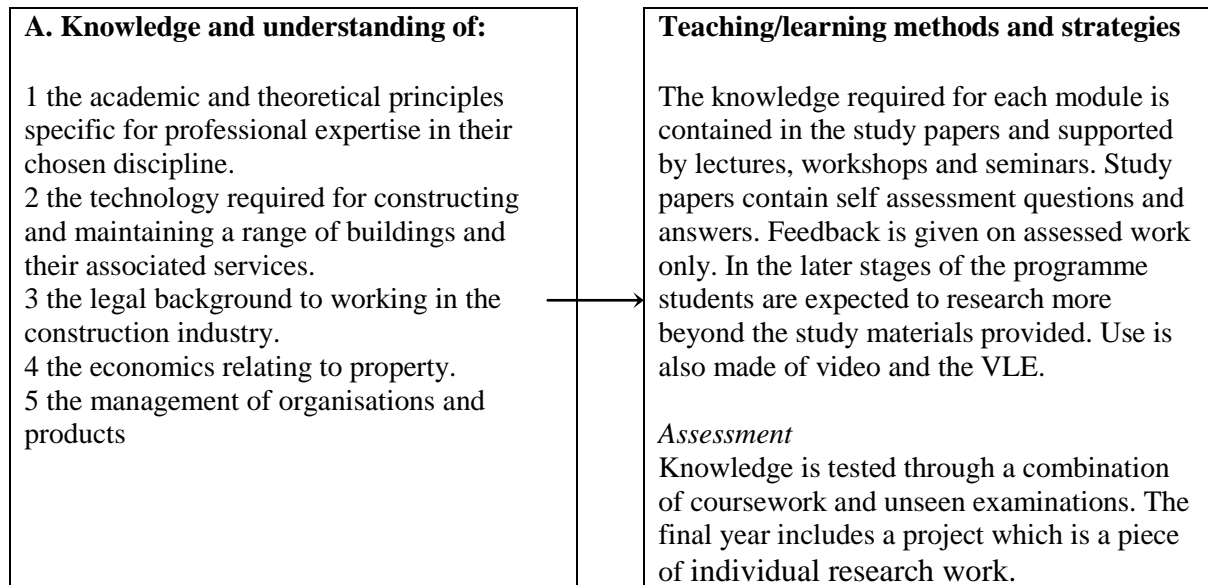

The students are normally already in relevant employment and are using the Degree as a means of gaining a professional surveying qualification. The course is widely seen as enhancing career prospects but often leads students to further study at postgraduate level.

Opportunities for study abroad or for placements

Not Applicable. As the programme is on a distance learning basis students are free to travel while they study and examinations can normally be arranged in most countries with sufficient notice.

Programme Outcomes

Knowledge and Understanding

Skills

<p>B. Intellectual skills – able to:</p> <ol style="list-style-type: none"> 1 think logically 2 analyse and solve problems 3 organise tasks into a structured form 4 transfer appropriate knowledge and methods from one topic within a subject to another 5 plan, conduct and write a report on an independent project 	<p style="text-align: center;">→</p> <p>Teaching/learning methods and strategies</p> <p>Logic is an important skill in estate management, especially in valuation and dealing with legal issues. Analysing and solving problems are common activities in the day to day employment of a surveyor. The format of the assignments and examination questions will generally be based around practical situations requiring problem solving. More straight forward problems will be used at the lower parts, but at Parts 3 and 4 students will be required to transfer the knowledge from previous modules and apply it to particular problems. Many surveyors are involved in writing reports for clients. The project will develop independent research and report writing skills.</p> <p><i>Assessment</i></p> <p>Items 1 – 4 will be assessed during the assignments and examinations, with item 5 being tested in the project module at Part 4.</p>
---	--

<p>C. Practical skills – able to:</p> <ol style="list-style-type: none"> 1. carry out valuations for different types of property and for different purposes, taking into account factors such as planning and legal issues, and choosing an appropriate methodology 2. manage property 3. give advice on property matters, such as investment. 	<p style="text-align: center;">→</p> <p>Teaching/learning methods and strategies</p> <p>Students are introduced to the economic principles underlying valuation in the two Economics modules. This is built on in the Valuation and Investment modules and the Applied Valuation module. Valuation for compulsory purchase is dealt with in Statutory Valuation. The Introduction to Law and Property Law modules provide the legal background to issues which may affect valuation. Aspects of property management are covered in the Building Technology and Management modules and further expanded in the Commercial Property Management module. Foundations for investment are covered in the two Economics modules and built on in the Investment module.</p> <p><i>Assessment</i></p> <p>All assessment is in the assignments and examinations.</p>
--	---

D. Transferable skills – able to:

- 1 communicate effectively including using IT
- 2 work as part of a team
- 3 be self-motivated
- 4 manage time
- 5 develop CPD discipline, including web-based CPD
- 6 develop a capacity for independent thought

Teaching/learning methods and strategies

The use of IT is embedded throughout the course. The distance learning aspect of the course encourages self-motivation and time management and, due to the fact that most students are already in employment, it encourages the development of good CPD practice. Team working is difficult to encourage with this type of course but local study groups are encouraged and group exercises at face-to-face sessions are undertaken.

Assessment

Communication in the written form is assessed by assignments and examinations. The ability for independent thought is assessed in the project. The other skills are not directly assessed but their effective use will improve performance in modules.

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the student handbook.
