

# Rapid Planning Toolkit

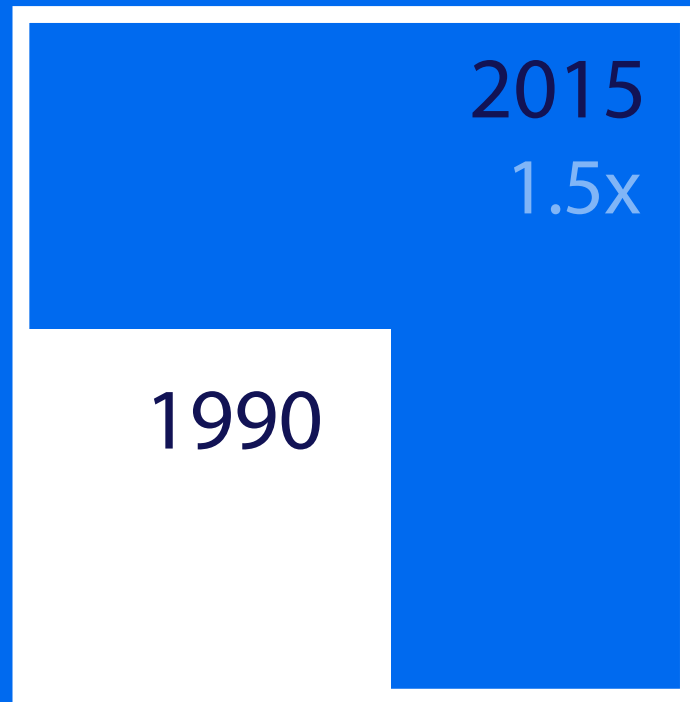

A Mayor's Step-By-Step Guide To  
Delivery Of Planned Urban Expansion

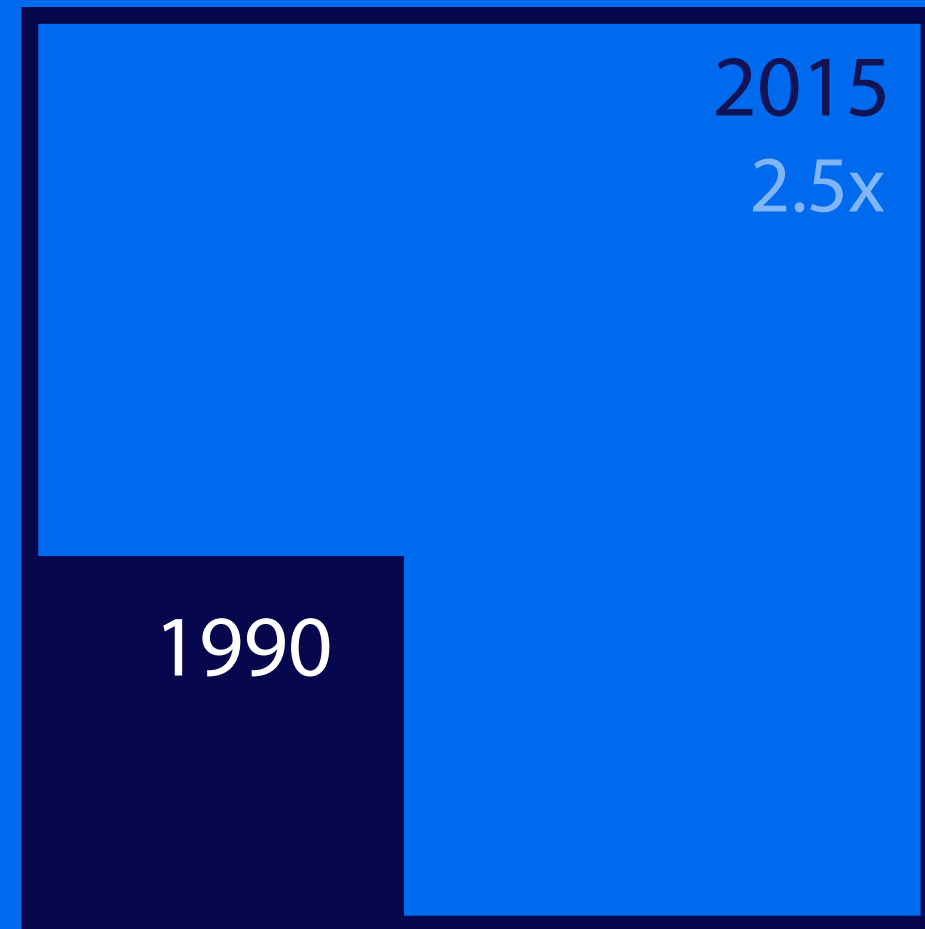

Rate of urbanisation

Today, there are more cities than ever before - and they are growing rapidly.

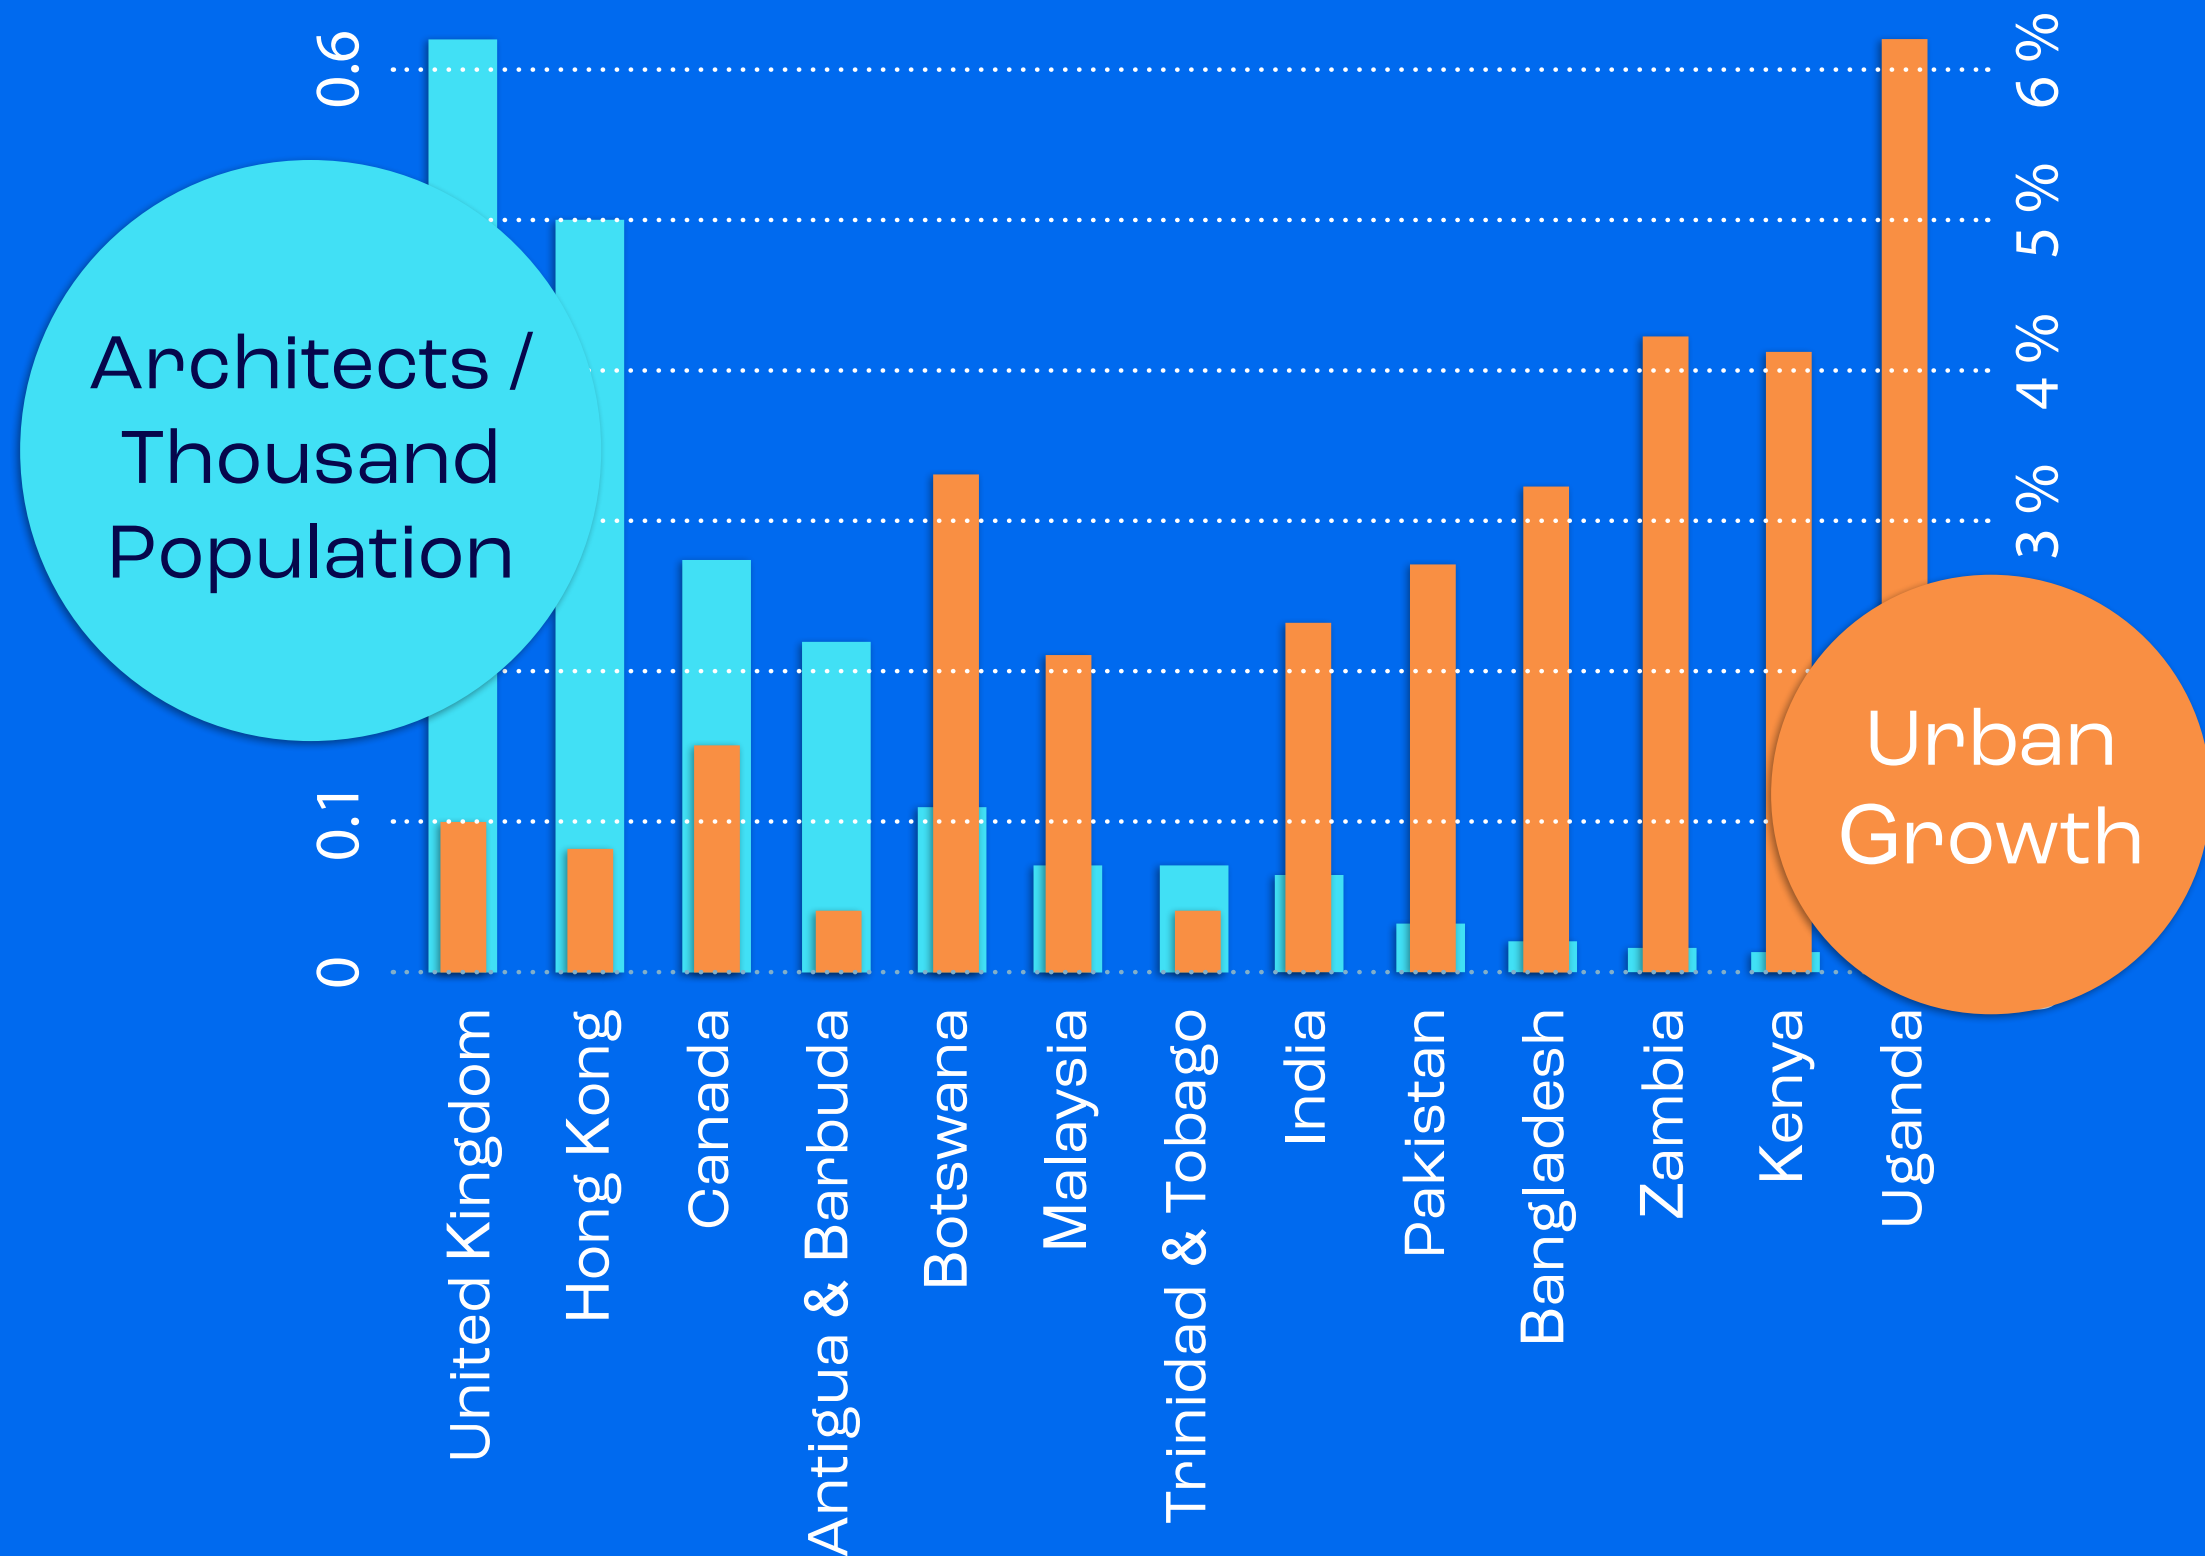

Growth in  
Population  
of cities on average

Growth in  
Urban Footprint  
of cities on average

Cities are expanding at even faster rates  
than their populations, leading to  
urban sprawl and inefficient use of land.

Countries with the largest rates of urban growth have the least professional resource.

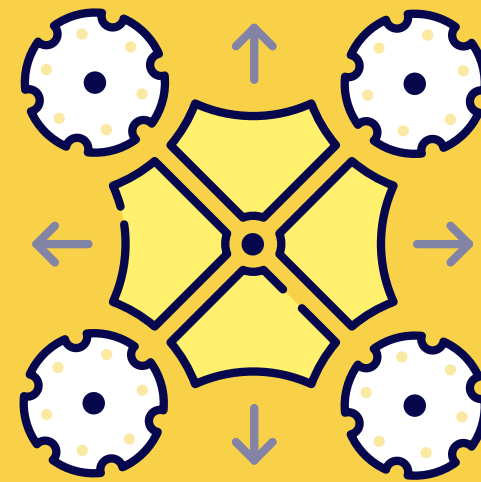

Planning to address rapid urbanisation targets all 17 Sustainable Development Goals.

01

Writing a  
Charter

02

Creating a  
Plan for Growth

03

Implementing  
the Plan

04

Building the  
Neighbourhoods

This is why we have created the  
Rapid Planning Toolkit - a simple 4 step guide  
to tackling rapid urbanisation.

# The Rapid Planning Toolkit Online Course

Launching  
11 November 2021  
at City Expo Malaysia
